BBB-Websites
Designer, Developer

Manchster City Football Foundation
Designer, Developer

Customer:

SAP Cloud Quote to Cash

Role:

UX Designer in a team of 2x UX Designer and 1x Project Owner

Focus:

CPQ (Configure Price Quote), pricing, billing

Tools & Tasks:

Balsamiq, Axure, Paper Prototyping, Usability Test, sapui5, Fiori, build.me

Summary:

As an UX Designer in Revenue Cloud, I am the contact person in any UX related topics like mockups or UX guidelines. We as a team also organize usability tests at the usability lab in Walldorf, Germany. Designing new features and screens are my main topics just like supporting our 10 SCRUM teams all around the globe.

Quote design

Designing the quote UI with Axure. Mocking different features like Step-by-Step approach, mass edit or complex pricing calculations (tier, block and volume pricing). Afterwards testing the UI in an usability lab.

↓
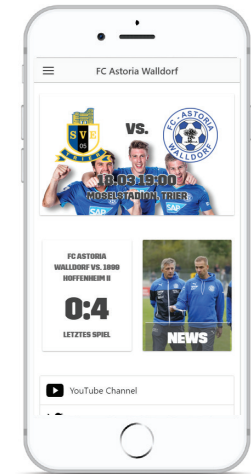

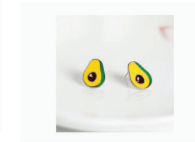

Summary:

2017 I founded the BBB Websites company which develops and designs websites, online shops, apps and other applications for small to mid size companies.
Currently I am working alone and cover all different customer requests like logo design, webshop development, flyer design and almost all kinds of internet presence.

App design and implementation

Designing and implementing a hybrid app for Android and Apple devices built with Ionic and Angular.
Including features like social media feed, news integration or match schedule.

Flutlichtderby gegen Hoffe II

Am Freitagabend steigt im Walldorfer FC-Astoria-Stadion der 23. Spieltag der Regionalliga Südwest. Zu Gast ist dann der Tabellensiebte TSG 1899 Hoffenheim II aus dem Kraichgau. Die Partie beginnt um 19 Uhr und steht unter der Leitung des Unparteiischen Marcel Beck aus Künzelsau.Ihn assistieren Kai Marc Lechner und Roman Reck an den Seitenlinien. Die Gäste haben in dieser Saison schon 45 Treffer erzielt, damit stellen sie den aktuell besten Angriff der Liga. Trotz der vielen Tore findet man keinen TSG-Akteur unter den Top Ten der Torschützenliste. Bei der TSG verteilen sich die

Role:
Designer, Developer

Focus:
Logo & Icon Design, hybrid mobile app development, prototype

Tools & Tasks:
Balsamiq, Angular, Ionic, Bitbucket, Slack, Illustrator, After Effects

Summary:
The hackathon was a project organized by SAP and Manchester City. Within a team of 5 we developed a registration app prototype for iPhone and Android.
I was responsible for developing all UI parts of the hybrid application. Including logos, mockups and frontend development.
